MAKHACHKALA, April 18 (Itar-Tass) - Police have found 20 kilogrammes of TNT and eight fragmentation landmines in a cache near the village of Kadyrsit in Dagestan, a spokesman at the press service of the regional Interior Ministry told ITAR-TASS on Tuesday.

The cache also contained 400 rounds of ammunition, a 300-millimetre artillery shell, several shells for a under barrel grenade-launcher and four electric detonators.

The chief of the ministry's press service, Anzhela Martirosyan, said ringleader Shamil Abidov, who was killed in a shootout with interior troops on January 14, owned the cache.
