Three landmines were found on the Kavkaz federal highway outside Aklhan-Kala Sunday morning.

Two of them were found and defused on the Grozny-Urus-Martan stretch, after Chechen President Alu Alkhanov had driven by, an Interfax correspondent reported.

Alkhanov earlier arrived in his native town of Urus-Martan from Grozny to be among the first to cast a ballot in the Chechen parliamentary elections.

Traffic has resumed on the highway by this hour.
